Mentor - Moses Daudu

My project uses Generative AI to create engaging social media advertisements for Lozzy Supermarket in Nnewi, Anambra State. AI generates promotional graphics, captions, hashtags, and video concepts from real supermarket photos, helping the business increase brand awareness, attract customers, and improve online engagement through digital marketing. _____

Problem Statement

Many Small and Medium Enterprises (SMEs) in Nigeria struggle to create professional advertisements because of limited budgets, lack of design skills, and insufficient time. As a result, they have low online visibility, reduced customer engagement, and limited access to local and international markets.

Project Overview/Solution

Our Solution

This project uses Generative AI to create affordable, high-quality advertisements for SMEs.

Using Lozzy Supermarket as a case study, I transformed real business photos into:

AI-generated posters

Promotional videos

Social media captions

Marketing campaigns

Product descriptions

Hashtags

The solution helps businesses market their products and services locally and internationally while reducing advertising costs.

Tools & Technologies

Tools Used

ChatGPT – Prompt engineering and content creation

Dola AI – AI video generation

Canva AI – Graphic design

Image Generation AI – Promotional visuals

Gemini

Facebook

Instagram

TikTok

WhatsApp Business

LinkedIn

Methodology / Implementation

How the Project Works

Collect real business images.

Upload images into a Generative AI tool.

Create detailed prompts describing the advertisement.

Generate AI posters and promotional videos.

Edit and refine the content.

Publish across social media platforms.

Track engagement and improve future campaigns.

Results /Demonstration Before

After

Key Takeaways

Generative AI empowers SMEs to create professional advertisements quickly, affordably, and at scale. This project demonstrates how AI can help Nigerian businesses promote their products locally and internationally, contributing to digital transformation and economic growth.

Future Improvements

AI voice-over advertisements.

Multilingual campaigns.

AI-powered customer targeting.

Automated content scheduling.

Analytics dashboard for campaign performance.

Expand the service to support more SMEs across Nigeria and connect them with international markets.

Congratulations, Generative AI Graduates!
